

# Dolphin Bio Suction

## *A Greener, More Natural Pool Experience*

*Relax and enjoy your bio pool, while Dolphin Bio Suction does the heavy cleaning work - without intervention and without harming the flora and creatures living in the pool.*

*Dolphin Bio Suction By Maytronics is the first automated solution for maintaining both bio and natural pools.*

*It combines the best of proven Dolphin technology and design with additional features that meet the special challenges of bio and natural pools.*

*The Dolphin Bio Suction efficiently removes leaves and other debris using either internal filtration or external suction, and scrubs the floor, walls and waterline, without harming the regenerative flora.*

## **Crystal-clear water**

- A sparkling clean and hygienic pool, free of leaves, dust and other debris with a choice of filtration options or external suction via using the pool pump.
- Unique triple-brush action, efficiently scrubs away dirt, algae and bacteria, even from extremely slippery and uneven floors and walls.

## **Peace of mind**

- Precise scanning technologies, smart sensors and a built-in gyro, ensure nimble movement and full coverage, reaching all the way into corners, curves, and on stony floors.
- High-performance, automated cleaning helps maintain water quality and balance, so you can safely keep using the same pool water for longer period of time.

## **Simply easy cleaning**

- With the weekly timer, you can preset the cleaning schedule for the week ahead, leaving you one less thing to remember to do.
- Use the remote control to choose the cleaning program that suits the pool conditions and your swimming schedule.
