

PM-670 FAST DOWN

INSECT REMOVER

PM-670 FAST DOWN is a product which prevents unwanted floating and diving insects and parasites from gathering on the pool water surface. It reduces the tension of the water's surface and allows bugs to drop to pool bottom when they can be vacuumed away. Bath can take place immediately after its application.

METHOD OF USE AND DOSAGE:

- **Shock treatment:** If infestation is heavy add 0.9 L/100 m³ of water directly on the water surface as close to the insect infestation as possible.
- **Maintenance:** Add 0.5 L/100 m³ of water every 2 weeks. Distribute the product over the entire surface.

PHYSICAL PROPERTIES:

- Appearance: Colourless to orange
- Odour: Tea tree oil
- Density: < 1.00 g/cm³
- pH: 7.5 – 8.2
- Solubility in water: Miscible in water in all proportions

HAZARDS AND PRECAUTIONARY STATEMENTS:

- Harmful if swallowed.
- Causes serious eye damage.
- Very toxic to aquatic life with long lasting effects.
- Avoid release to the environment.
- Wear eye protection.
- In case of contact with eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center or doctor/physician.
- Collect spillage. Dispose of contents in accordance with national regulation.

PACKAGING:

0.5, 1 Kg cans.
