Drainage Pumps/Waste Water Pumps

Ama-Drainer N 301/302/303/358

Main applications

- Drainage
- Disposal
- Drainage systems
- Lowering groundwater levels
- Maintaining groundwater levels
- Drainage

Fluids handled

Pump for handling clean to turbid water not containing aggressive, abrasive or solid substances.

- Solid particles with a particle size of up to 10 mm (301, 302, 303)
- Solid particles with a particle size of up to 35 mm (358)
- Faecal-free waste water
- Grey water
- River, lake and groundwater

Ama-Drainer N C - Version for aggressive water

- Seawater
- Brackish water
- Water containing salt

Operating data

Operating properties

Characteristic		Value
Flow rate	Q	Up to 16.5 m³/h (4.6 l/s)
Head	H	Up to 12 m
Fluid temperature	t	50 °C max.

Designation

Example: Ama-Drainer N 301 S E / C

Key to the designation

Code	Description
Ama-Drainer N	Type series
301	Code number
301	
302	
303	
35	Free passage
35 ¹⁾	= 35 mm
8	Motor rating in kW x 10
8 ¹⁾	= 0.85 kW
S	Float switch
S	= with float switch
N	= without float switch
E	Motor
E	= single-phase a.c. motor
C	Material
C ²⁾	= version for aggressive water
- ³⁾	= version for waste water

Design details

Design

All parts which will come into contact with the fluid handled are made of rust-proof materials.

- Fully floodable submersible motor pump
- Close-coupled design
- Vertical installation
- Single-stage
- Integrated swing check valve (301, 302, 303)
- Pump controlled by integrated float switch
- Enclosure: IP68 (permanently submerged) to EN 60529 / IEC 529
- Max. immersion depth 2 m

Types of installation

- Transportable models

Drive

- Jacket-cooled single-phase AC motor
- Integrated temperature switch

1) Type series N 358 only
 2) For type series N 301/302/303 only
 3) Without material code = version for waste water (standard)

- With cable and shock-proof plug

Shaft seal

- Drive-end: 1 shaft seal ring
- Pump end: two shaft seal rings
- A lubricant reservoir in-between the seal elements ensures cooling and lubrication.

Bearing assembly

- Enclosed bearings, grease-packed for life

Materials

Material variant standard/C

Pump section	Standard material variant N 301/302/303	Material variant C N 301/302/303	Standard material variant N 358
Pump casing	Polypropylene, glass fibre reinforced (30 %)		
Discharge casing	Polypropylene, glass fibre reinforced (30 %)		
Casing cover	Noryl GNF3		
Impeller	Noryl GNF2	Noryl GNF2	Polyamide
Motor housing	Chrome nickel steel (1.4301)	Chrome nickel molybdenum steel (1.4571)	Chrome nickel steel (1.4301)
Shaft	1.4028	Chrome nickel molybdenum steel (1.4571)	1.4028
Float switch (float)	Polypropylene		

Product benefits

- Ready-to-connect, easy installation and commissioning
- Maintenance-free bearings grease-packed for life
- Low-weight, high-quality noise-absorbing plastic casing with sturdy handle, resistant to corrosion, impact and abrasion

Selection table

The table listing fluids handled is a selection tool for drainage duties. It should be used for orientation and is based on KSB's many years of experience. The data are reference values and should not be considered to be generally binding recommendations. They shall not be the basis for warranty claims. Please contact your nearest KSB sales branch and/or our technical departments for in-depth advice.

O200	Signalling module for type BC	X	X	X	X	19075182	0.2

⁷⁾ Installation options must be processed via KSB EasySelect, otherwise they will be supplied but not fitted.

Operation with mini control systems

For Ama-Drainer 301 SE/NE, 302 SE/NE and 303 SE/NE with 10 m power supply cable, the supplied locking disc must be mounted instead of the float switch (see operating instructions). Separate float switches are required for operation with mini control systems.

LevelControl with float switches

Single pump:

- at least 1 float switch for pump On/Off
- at least 2 float switches for pump On/Off and high water alert

Two pumps:

- at least 2 float switches for pump On/Off
- at least 3 float switches for pump On/Off and high water alert

Dual pump operation with two level switches at different levels

Two pumps installed in the same installation location should be operated via the LevelControl unit. This control unit enables automatic alternating, peak load and stand-by operation. An external alarm switchgear will not be required, as LevelControl features an integrated alarm function.

Connection to the control station

With the exception of MSE, each control unit features a volt-free contact for transmitting general fault messages to a control station.

LevelControl Basic 2 control units

 Valid for all countries except France.

Alarm switchgears for pumps without ATEX

AS 0/AS 1/AS 2/AS 4/AS 5

	Item	Description	Mat. No.	[kg]
	E50	Alarm switchgear AS 0 with circuit breaker, piezoceramic signal transmitter, 85 dB(A) at a distance of 1 m and 4.1 kHz, green equipment-on lamp Plastic housing IP20, 140 x 80 x 57 mm. Use float switch, F1 moisture sensor (item E64), M1 alarm contactor or signal relay of control unit as contactor.	29128401	0.5
	E51	Alarm switchgear AS 2 with circuit breaker, piezoceramic signal transmitter, 85 dBA at a distance of 1 m and 4.1 kHz, green equipment-on lamp, volt-free contact for hook-up to a control station. Plastic housing IP20, 140 x 80 x 57 mm. Use float switch, F1 moisture sensor (item E64) or signal relay of control unit as contactor.	29128422	0.5
	E52	Alarm switchgear AS 4 with circuit breaker, piezoceramic signal transmitter, 85 dB(A) at a distance of 1 m and 4.1 kHz, green equipment-on lamp, volt-free contact for hook-up to a control station, self-charging power supply unit for 5 hours' operation in the event of power failure Plastic housing IP20, 140 x 80 x 57 mm. Use float switch (E60), F1 moisture sensor (item E64) or signal relay of control unit as contactor.	29128442	0.5
	E53	Alarm switchgear AS 5 Mains-independent, with self-charging power supply unit for 10 hours' operation in the event of power failure, mains pilot LED, fault indicator light, horn-off push button, volt-free contact for hook-up to a control station, ready for connection with 1.8 m connection cable and plug. ISO housing IP41, 190 x 165 x 75 mm. Use float switch (E60) or signal relay of control unit as contactor.	00530561	1.7
	E55	Alarm switchgear AS 1 In ISO plug housing IP30, mains-independent, with self-charging power supply unit for 5 hours' operation in the event of a power failure, acoustic signal 70 dB(A) with circuit breaker and integrated signal transmitter with 3-metre connection cable, max. 60 °C, not suitable for steam and condensate. 1. High water alert by suspending the moisture sensor in a (pump) sump above the pump start-up point. 2. Water alarm signal at a water level of only 1 mm (!), by placing the contactor on the floor of rooms at risk of flooding, e.g. the cellar or next to the washing machine in the kitchen or bathroom.	00533740	0.9
