SUPPLY OF DISCHARGE CONNECTION SETS

(Discharge Bend and Guide Rail Fitting)

The pumps listed below are being supplied without discharge bend or guide-rail fitting set (nor stand for the B and C series of 5.5kW or over). Each accessory such as discharge bend, guide rail fitting set, or the pump stand, is supplied individually. When you are going to place an order on these pumps, please order the pump, discharge bend (BEND SET), guide rail fitting set (TOS/TS SET), or the stand (STAND SET) separately. Only exception are the 5.5, 7.5 and 11 kW SFQ pumps. These pumps can only be ordered as free-standing version (Bend already as standard accessory) and TOS-version (TOS as standard accessory).
